Subject: GPS Tracking Capabilities

**INFORMATIONAL
OPERATIONAL**

All,

We've recently added tracking capabilities to B182, B188, and B189. This enhancement will help improve situational awareness and real-time tracking during responses.

Please review the updated chart below showing each apparatus and the type of tracking license currently assigned. Keep in mind:

AVL licenses are tied to the physical truck – not the unit designation. If you are operating a reserve unit, you must continue to go In-Quarters over the radio to ensure accurate location reporting.
