

Magnolia Fire Department

BULLETIN

No. 2025-16

Date: 7/25/2025

To: Emergency Operations Personnel

From: Division Chief of Logistics

Subject: PStrax – Apparatus Checklists

**INFORMATIONAL
OPERATIONAL**

Changes to PStrax and apparatus checklists are currently under way to better assist firefighters during apparatus checks while also providing consistency and uniformity to systems and processes. These changes have been tested for the past few months and recommendations have been received and applied. All changes will be completed by close of business July 31, 2025. Starting August 1, 2025, if you see any discrepancies or have further recommendations, please send them through your chain of command. A list of those changes is listed below.

1. “Enable Check All” function activated on all apparatus checklists.
2. Task intervals changing to align with 48/96 schedule. Most items will only be checked on firefighter’s first day of their tour. *This will not affect part-time stations or reserve apparatus. *
3. Mirroring checklists across all apparatus types.
